1. General Impressions of Faculty/Speakers

1 2 3 4 5 6
Very poor faculty Very superior faculty

Comments:

over all faculty were very good but I spent too much time looking for their part of the booklet and their power point slides, because the order didn't match the presentation order & even the slides didn't match what presenters were using. I haven't yet reviewed the disc & that might have provided clarification

2. What Were:

(a) The major strengths of the program? Strong speakers with pertinent topics

(b) The major weaknesses of the program? I don't understand the need for a 1/2 day on Wednesday. These speakers seemed rushed. The break up of speakers from one day to the next seemed unnecessary.

3. Which Topics Do You Feel Should Have Been Added to or Deleted From the Program?

Some speakers used such old data - use updated info

Three full days would be better & keeping speakers' presentations unbroken would offer more continuity.

Judge Emory A. Plitt, Jr. (Monday)	Content A	Quality A
------------------------------------	--------------	--------------

Very good set up/introduction information to set the tone for the rest of the conference. Good refresher information as well

Kris Pitcher (Monday)	Content A	Quality A
-----------------------	--------------	--------------

Excellent speaker. Pertinent/current information. Gave me many ideas to take back to the department

Alexis Artwohl (Monday, Tuesday)	Content C	Quality C
----------------------------------	--------------	--------------

Speaker is good at what she presents but so much of the research is dated. When reporting such important info about what officers experience, her presentation should not have been split into two days. Research reporting is dry. Better to have this start the day on Tuesday

Greg Meyer (Tuesday)	Content C	Quality C
----------------------	--------------	--------------

Info could have been better. Speaker was knowledgeable but a bit dry. He relied too much on powerpoint & kept asking other presenters what they were doing the next day or what had occurred prior to his presentation. All disrupted the continuity

John Peters (Tuesday)	Content A	Quality A
-----------------------	--------------	--------------

Excellent speaker with very important and current information

Eric Daigle (Tuesday)	Content A	Quality A
-----------------------	--------------	--------------

Although presenting case review could be dry, he was a great presenter and his high energy kept this section very interesting.

Ken Katsaris (Wednesday)	Content B	Quality C-D need to see video endings
--------------------------	--------------	--

Some videos stopped so we never saw entire videos. Since his presentation relied on ~~the~~ these, videos should have worked. Also he spent too much time looking for which video to use from a long list of possibilities. Put the videos you intend to use in a special folder to more rapidly identify which to use
